# **PROGRAM:     Audition technique/ Script breakdown**

**SCENE WORK - EMOTIONAL FLEXIBILITY - BODY  
AWARENESS - AUDITION TIPS - CAMERA WORK**

**\*Our day kicks off with a liberating moving circle, a dance exercise designed to help you release pent-up emotions and fully inhabit your body. This sets the stage for enhanced emotional and physical awareness throughout the day.**

**\*From there, we'll transition into scene work. You'll dig deep into the script, uncovering not just the lines but the emotional core of your character. Learn the art of emotional flexibility, how to pivot from joy to sorrow, anger to calm, within the span of a few lines. This will be your key to delivering a truly compelling performance.**

**\*As we move into the afternoon, we'll focus on body awareness and camera work. Master the subtleties of facial expressions and body language that resonate on screen but might be overlooked on stage. Understand how your posture, your gestures, and even your gaze can make or break your audition.**

**\*The workshop will culminate with invaluable audition tips. From entering the room to your final line, make every moment count. You'll walk away with actionable strategies that will help you captivate casting directors and leave a lasting impression.**
